25X1A

25X1A

2. The purpose of the meeting was to discuss how the new emergency generator will be installed. The contractor provided the Agency with the specifications and a list of materials for the installation. He did not, however, provide any drawings showing how the generator would be installed or the layout and connection of the related equipment.

25X1A

3. It was agreed that Mr. [REDACTED] would be provided with a set of recent drawings of the powerhouse [REDACTED] in order that he may indicate how he plans to install the new generator. Once this has been accomplished, another meeting will be scheduled at a future date to insure that all concerned parties are satisfied with the proposed installation. When this has been done, Mr. [REDACTED] will be allowed to proceed with the installation.
